Kaleidoscope Puzzle Quilts – Supplies list

This is a template-free method, (without triangular rulers), to construct 8” Kaleidoscope blocks. Learn this technique beginning with 16 blocks, or 25 blocks, made from 10” start squares. For the simplest version, you will need four fabrics and will cut four 10” squares of each (at least one dark and one light recommended). For 25 blocks, choose a minimum of six fabrics (two darks, two lights and two mediums recommended).

Basic sewing supplies (including thread, pins, scissors and seam ripper)

Sewing machine in good working order, extension cord

Iron and small ironing board (unless provided by workshop host)

Cutting mat and rotary cutter

Rotating 12” cutting mat (if you have one)

Rulers - 6” x 24” and a 12½” or 15” square (Omnigrd recommended)

Masking tape and Sharpie pen

Colored pencils/crayons

Batting or flannel backed vinyl table cloth for work-wall (minimum size 42” x 42”)

Digital camera if you have one (to assist with recording the layout options)

Fabric – ⅓ yards or larger, of four (minimum) to ten fabrics

A total of sixteen 10” squares are needed, or 25 for a 25 block quilt.

One full width (selvage to selvage) strip 10” wide will yield four 10” squares.

Alternatively, you may use pre-cut Layer Cake 10” squares making sure there is a variety of values

Bring a wide range of values and print scale.

If you are having trouble selecting fabrics, try picking at least one multicolored print and then choose monochromatic fabrics in the same colors in a variety of values and print size.

If in doubt, bring a wide choice and help will be provided during class to make selections.

Additional fabric required for borders (not needed during class).

Pattern fee of \$5, payable at the time of the workshop.
